DETAILED ACTION

1. This is in response to the arguments filed on 22 December 2006.
2. Claims 1-30 are pending in the application.
3. Claims 1-30 have been rejected.

Response to Arguments

4. Applicant's arguments filed 22 December 2006 have been fully considered but they are not persuasive.

On page 2, the applicant argues that the specification makes clear the claims. The applicant points the examiner out to the specification (page 8, lines 24-25) and quoting "The unencrypted data may include files, e-mail, bookmarks, calendar information or other type of data". The applicant also points the examiner out to the specification (page 2, lines 7-9) and point out that the "encrypted data" and the "decrypted data" refers to data that is being exchanged in a computer network.

The examiner agrees that the specification does list examples of "unencrypted data", "encrypted data" and "decrypted data". However, it is noted that the features upon which applicant relies (i.e., files, e-mail, bookmarks, calendar information or other type of data) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 3, 4, 7, 8, 11, 12, 13, 15, 16, 19, 20, 21, 26 and 30 recite the limitation of encrypting/decrypting data. However, it is unclear to the examiner what the "data" being encrypted is. It is unclear to the examiner if the data is the result of the hash on the hint and the password or some other data that has not been claimed. Clarification is requested.

Any claims not directly addressed are rejected on the virtue of its dependency.

Allowable Subject Matter

6. Prior art does not teach, "performing a hashing algorithm on the hint and the password to generate a key", as recited in the independent claims.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
